

Beloved and respected Sir CP

I dare accept the invitation of Rajesh sharing with you my grave concerns about the developments over the past years since Shri Mataji has decided to stop speaking.

I join Rajesh in his honest desire to making you aware of unfortunate tendencies in Sahaja Yoga resulting from Shri Mataji's withdrawal and the fact that you have allowed to be perceived as Her representative.

I do this, because I sincerely hope that this will help establishing an atmosphere of loving and fearless openness between all of us and will enable us to exchange with each other honestly and respectfully in future. I hope that you will perceive my message with the generosity of an open heart and mind.

The Sahaja Yoga that had been brought to mankind by Shri Mataji is NOT just love and equality but it is the actual awakening of an inner reality in each human being, putting at our disposal the potential of the manifestation of our Atma personality through Kundalini awakening and through constant cleansing of our subtle system.

It is most complex, most sophisticated, indeed a meta science, which requires a strong spiritual desire, deep understanding and life long practise.

All religions and dharmas of the past are getting fulfilled and enlightened in the actual reality of Sahaja Yoga; all Avatars, prophets and saints, all beings, Divine and / or human, who have ever lived and worked for the evolution and liberation of man, have but prepared the path for this most glorious Adi Shakti, who has gracefully responded to their constant efforts and prayers by granting humanity the chance of actual oneness with the Divine.

The individual SY is indeed a daily practice of cleansing us from negativity and rising above the harmful influences of our Ego and all other inner and outer "enemies" of our Yoga.

This way we slowly but steadily move forward on our way of transforming our lower human nature into a new born personality that lives in report with his inner being and with the all - pervading presence of the Divine.

This new race of human beings had been promised by the Divine and was heralded by prophets and saints alike.

May I respectfully ask you Sir, if you really understand Sahaja Yoga, understand what we practice and who we are?

May I dare asking you, if you really understand the true nature and Divine powers of Shri Mataji and the nature of Her vision and mission?

Do you not know that SHE is the Adi Shakti, the actual power of God Almighty and if, do you really feel that it is your responsibility to act as a rule maker in Her kingdom?

Do you not know that Sahaja Yoga is an evolutionary happening, a natural and living spiritual process that can not be systematized nor administered with political and bureaucratic instruments and a Machiavellian mentality?

You must be aware that no Incarnation ever had achieved even a smallest fraction of what Shri Mataji had done and that SHE will be the presiding Deity over the new age of Aquarius, the age of the Mother, who showers Her living waters from Her horn of plenty!

Do you not know that we are all twice born children of this Deity and that like Shri Ganesha we all have a Mother only?

Do you not know that She has taught us to bow only to God Almighty and otherwise assume our position as princes and princesses in Her kingdom on earth?

And finally, respected Sir CP, you must be aware that She has entrusted the emancipation of mankind to us and that according to Her we will be held responsible.

Shri Mataji has never introduced mental or political systems in SY, but, in the contrary, has promoted a culture of spontaneity, meditative intuition and compassion. She would allow SY to develop organically and working for SY would always be fun and joy, rather than competition and pressure to perform.

We are convinced that we will need to preserve this, Her culture and style in SY.

This culture of SY will need to be guarded and protected from misleading and detrimental influences of busybodies such as Paul, who took Christianity into a fatal direction.

This historical mistake may not be repeated and we elder Sahaja Yogis are naturally in a position of responsibility, which I am sure, all will assume gladly.

I lovingly request you to trust us, to respect us as loyal and devoted children of Shri Mataji, who has spent years and years to nurture us, to cleanse us and to make us aware of our potential and to prepare us for our future challenges.

I beg you to stop manipulating and intimidating us, but to please acknowledge our emancipated spiritual nature and the subtle powers Shri Mataji has bestowed on us.

Like Rajesh I ask you, how many people you have given self realization, and would you even know how to do it? Let me assure you, we do not expect this from you, but we would sincerely hope that you could respect us as elders in - and teachers of SY, who have devoted major parts of our lives to nothing else but this, HER and our live's mission.

Please do not produce further letters with the frail signature of our beloved Mother.

To produce letters with Her signature and even with signatures of additional four witnesses is itself a sign that things are going very wrong in our Sahaja family.

Shri Mataji has never communicated with us by letters, but has always spoken with us directly. In all matters of SY She has discussed with us, listened to us and has made HER decisions in a loving and sweet Guru - disciple and /or Mother - child cooperation. Never would She make us feel intimidated, insulted or hurt, but always we had left these conversations with Her elated, reassured and bathed in Her Divine grace.

Please do remember the actual meaning of this unique role Shri Mataji has entrusted you with, which is serving Her vision and mission with your profound professional knowledge and experience - in cooperation and team work with established and acknowledged leaders and coordinators -, while you take care of Her as a loving and devoted husband. (which you so tirelessly and devotedly do - to our all gratitude and admiration)

Rather than burdening yourself with this assumption of a papal legate and trying to rule SY with a group of few - and thus pursue division and discord -, I appeal to you to please collaborate with us all establishing structures that can survive for long and will ensure the preservation of Shri Mataji's living spiritual heritage.

I trust that the WCASY appointed by Shri Mataji will discuss your recent instructions in due time and will comment and respond in a spirit of religious devotion to Shri Mataji and loyal responsibility to this unique and historical Divine movement entrusted to ALL of us by our Divine Mother Shri Mataji Nirmala Devi.

I pray that we all will achieve together to please Her and to fulfill Her vision of love and unity amongst us all.

With love and respect,

Yours,
Philipp
