**INTRODUCTION**

**The Mythology and Associations:** The ruler of Aquarius is Uranus. Its symbol represents water, a universal image which dates back into prehistory. This will also be recognized in the egyptian hieroglyph representing the same. The association in Aquarius is that of the servant of humanity pouring out the water of knowledge to quench the thirst of the world. These symbolic waves of water, share the dual expression of vibrational waves of electricity or parallel lines of force.

**Personalities:** Aquarians are interesting and attractive people. They can be shy, sensitive, gentle and patient; or enthusiastic and lively with a tendency to be exhibitionists. Both types are strong willed and

forceful in their own way. Very opinionated with strong convictions, they fight for what they believe in. They will argue vehemently for what they believe to be true, however, if you can show them facts to the contrary, they have little trouble altering their opinion.

These are farsighted people with an eye and ear to the new and innovative. They are generally without prejudice and quite tolerant of the point of view of others. They have an interesting side to their nature that allows them to see a valid argument even when they disagree with it. They are quite objective folk and never get waylaid by being too close to an issue or person.

Regardless of type, Aquarius is truly a humane, human being. Known to be frank and outspoken, a 'on my mind, on my mouth' type, Aquarius makes for a serious and genial companion. Refined and idealistic, romantic but practical, they are personable and likable people. Quick in mind and quick to respond, Aquarians love activity and are quite reasonable, though difficult to get close to. They cherish and guard their independence, and are a strange mixture of caring concern and cool detachment. They will go out of their way to help when needed, but never get involved emotionally.

### Mythic Origins —

To fully appreciate the mythological significance of Aquarius, it is necessary to bear in mind the importance of water to our ancestors. The very existence of the ancients depended upon the supply of life sustaining moisture. During the month of Aquarius, the rains were on the land, literally poured from the heavens. In many regions of the ancient world, this was seen as the beginning the new year, a time of new life cycles. It is not hard to understand why some images depict the figure of Aquarius as a water bearing angel.

The region of the night sky in which Aquarius resides is populated by water signs. In Babylonia, this region of the zodiac was known as the Sea. Here we also find, Capricornus, the water goat and Pisces, the fish.

To the Greeks, Aquarius was associated with [Ganymede](#), the son of [Tros](#), king of [Phrygia](#). The god [Zeus](#), so admired the boy's beauty that he abducted him to serve as cup bearer on [Mount Olympus](#). It was this desire to possess the young prince which inspired Zeus to cast his image eternally in the night sky.

The Egyptians associated this time of year with the god [Hapi](#). A heavysset, abundant figure, Hapi was responsible for the annual flooding of the river Nile. In some images he is seen watering the earth from two large jugs.

**The Dreams:** People have been having many water type dreams. Usually they are very scary. Many people are afraid that these dreams are prophetic and that the ocean is going to come over the land and kill everyone. However, other dreams like this portray similar ocean dreams but the dreamer just stands there and watches in awe and feels no fear. Other dreams are about fish tanks which are broken and fish are flopping on the floor helplessly, and others where the tank breaks and water falls to the floor, but the fish swim in the air just like they were still in the water. We have come to think of these dreams, as being prophetic, Yes! However, not that the physical world will be destroyed but that we are undergoing a spiritual change, and these dreams are messages that the Age of Pisces (a water sign) is ending, and that the Age of Aquarius (the water bearer sign) is coming in. This link is provided if you would like to read the dreams we have collected. [WATER DREAMS](#)

Let me quote from the book ['Millennium Prophecies, Predictions for the Year 2000, by A.T. Mann'](#).

Chapter 10: Dates for the Beginning of the Age of Aquarius:

In the ['Book of World Horoscopes'](#) [Nicholas Campion](#) mentions at least seventy dates for the beginning of the Age of Aquarius covering a range of 1500 years. He forewarns his readers by stating that there has been much confusion over this issue, and quotes the noted astrologer [Charles Carter's](#) statement that more rubbish has been written about this subject than any other branch of astrology, which is probably, in itself, an exaggeration.

As an illustration, Campion mentions an interesting synchronicity that occurred in 1962 involving a nineteenth-century French hoaxer and the renowned American clairvoyant [Jeanne Dixon](#). In the 1890's [Gabriel Jogand](#), primarily to agitate superstitious Catholics, deliberately devised and publicized a myth that the Antichrist was going to be born in 1962. On the projected day seventy years later, [Jeanne Dixon had a vision](#) that somewhere in the Middle East a baby had been born who would become a world teacher and lead humanity away from Christianity...an accurate definition of the [Antichrist](#) and also as a symbol of the beginning of the Age of Aquarius.

Campion constructed the horoscope computed from Dixon's estimated time and transposed it to Jerusalem and discovered that there had been a Solar Eclipse on the previous day when all of the traditional seven planets were in the sign of Aquarius. This is an interesting possibility for the entrance of the Age of Aquarius, but was not accompanied by an significant world events which would justify such a selection. This is also true of the majority of dates previously set for this momentous entrance...although enticing, they have not been persuasively connected with any major world events which would justify their claims. However, it could be reasons that the entrance into the Age of Aquarius is an inner, rather than an outer transformation, which could be the case.

Many of the following proposed dates for the transition into the New Age of Aquarius are symbolic rather than astronomical or astrological, based as they are on intuitive datum points or perceived transitions.

Among the more obvious suggestions for the beginning of the Age of Aquarius are the following:

1898: According to Hindu chronology, the [Kali Yuga](#) (Age of Iron) began in the year [3102 BC](#). As the yuga has a duration of 5000 years, its end occurred in 1898.

1904: [Aleister Crowley](#) in the [Book of the Law](#), dictated to him by a discarnate Egyptian entity, proposed April 1904 in Cairo when the channeling occurred, as the beginning of the New Aeon ruled by [Horus](#), the solar god of ancient Egypt.

1905: [Gerald Massey](#) used the standard precessional period of 2160 years for each [zodiac](#) sign of 30 degrees and assumed a starting point of 255 BC, which meant that the beginning of the Age of Aquarius was in 1905. He used the correct precessional period, but his starting point seems only to be justified because it is significant to Massey, rather than for humanity as a whole. ([Signs of the Zodiac](#))

1911: [Madame Blavatsky](#) predicted that the reality of a Universal Church would become possible towards the close this century. [The Theosophical Society](#) based their calculation for the dawning of the Age of Aquarius on the channeling of the [Lord Maitreya](#) by [Krishnamurti](#) in 1911. ([Madame Blavatsky](#))

[biography](#))([Books by Helene Blavatsky](#))

1921: The Jockey Club of Barcelona received tremendous backing for a prediction that the world would end at this time.

1936: [Edgar Cayce](#) stated that during [1936](#) the terrestrial axis had begun to shift, an exorable process which would activate the transition between world ages. The change would accelerate rapidly, with catastrophic consequences. A well-known American geologist confirmed that this axis shift did indeed begin below the Earth's surface in 1936.

([Edgar Cayce Books](#))

1945: [Alice Bailey](#) determined that the transition to the Age of Aquarius occurred in the 1930s as described in [The Externalisation of the Hierarchy](#). In 1945 the Master [Djwhal Khul](#) gave out [The Great Invocation](#) which invoked the powers of Light, Love and Divine Purpose irrespective of all religions, and in 1946 Alice Bailey wrote:...the day is dawning when all religions will be regarded as emanating from one great spiritual source. ([Alice Bailey books](#))

1962: Peruvian spiritual messenger [Willaru Huayta](#) of the [Quechua Nation](#), a part of the ancient Inca confederation believes that the Age of Aquarius began in February, 1962.

1975: [Rudhyar](#) designated 1975 as the time when the [Avatar](#) of the New Age would appear. He allowed the possibility that it might not be the [Second Coming of Christ](#) anticipated by many, but that the [Christ energy](#) could be carried by a series of individuals who would be agents for this message.

1975: A. Woldben in [After Nostradamus](#) suggested a range of dates including 1975, 2000, 2023, and 2160. He stated that the transition of world ages is never exact and can take hundreds of years because they constitute a modification in collective consciousness.

1987: In August [Jose Arguelles](#) organized [The Harmonic Convergence](#) which was a foretaste of the imminent New Age.

1997: [Carl Jung](#) was inspired by the work of Nostradamus and supported his contention that the New Age would happen between 1997 and 2000.

2000: There are many prophecies which agree that the Millennium year is 2000, among them those of [Nostradamus](#), [Edgar Cayce](#), [St. Malachy](#), [Garabandal](#), [Fatima](#) and other Christian prophets. [Margaret Hone](#) in [The Modern Textbook of Astrology](#) gives the year 2000 as a symbolic date for the new Age. The seer [Catharine Emmerich](#) believed that [Lucifer](#) would be unchained in 50 or 60 years before the year 2000. The theory of [The Divine Plot](#), by this author, is an astrological model of the historical process expressing multiple cyclic world ages, and it projects a transition to a new world age in the year 2000.

2001: G. Barbarin stated that according to the principle of the [Great Week](#) and the six days of a thousand years of the [adamic Era](#), there will follow a day of rest, the [Millennium](#), which from the year 2001 will bring a thousand years of peace. While his prophecy echoes the [Seventh Day Adventists](#), it is also similar to the [Hebrew Jubilee Year](#) and [Nostradamus Seventh Millennium](#). ([Catholic Jubilee Year](#)) ([Jewish Jubilee Year](#))([Nostradamus Prophecies](#)) ([Year of Jubilee](#))

2010: [Peter Lemesurier](#) in *The Gospel of the Stars* suggests this as an official deadline and entrance into the Age of Aquarius. He quotes the [French Institut Geographique National](#) for support of his claim. ([The Gospel of the Stars by Joseph Seiss](#))

2012: [Terence](#) and [Dennis McKenna](#) in *The Invisible Landscape* advance an idea derived from studies of primitive shamanism and psychoactive drugs that our universe is created by the holographic interaction between two [hyper-universes](#), and the Universe is cyclic and recurrent. Based on extensive computer modelling, they think that humanity will experience a [Resurrection into the Light](#) during six days in AD 2012 when, in the last 135 minutes, eighteen barriers, comparable to the appearance of life, the invention of language or the achievement of immortality will be experienced, thirteen of them in the last millisecond.

2012: [Jose Arguelles](#) discovered a system of cycles based on the ancient [Mayan calendar](#) and determined that the year 2012 would be the end of the 396 year [Baktun](#) of the Transformation of Matter, the collapse of global civilization with a following era of information and crystal-solar technology and galactic synchronization.

2020: [Adrian Duncan](#) proposed the Aquarian Mutation chart, a horoscope for the aquarian transition, being the time when Jupiter and Saturn are conjunct in Aquarius for the first time since AD 1404 (21 December 2020, 18:18 GMT, as published in *Doing Time on Planet Earth*)

2025: The Tibetan [Djwhal Khul](#), speaking through [Alice Bailey](#), stated that the [Fourth Ray](#) comes into manifestation in 2025, bringing qualities for preparing the discrimination and balance required for the intellectual and emotional refinement of humanity. Humanity will be able to function more completely on the intuitional plane.

2059: Rudhyar in [The Lunation Cycle](#). There is a disagreement over this and the following date in Rudhyar's work.

2060: [Dane Rudhyar](#) determined that the last precessional Age of Pisces began in 100BC and since a world age is 2160 years, the official Age of Aquarius begins in this year. He considered that the last 10 percent of each age is its Seed Period during which its influence will begin to be felt and experienced. He mentions that in 1844 a young [Persian prophet](#) announced the end of the Islamic era and the beginning of the New Age, the avatar of which would announce himself some nineteen years later. One of his original followers proclaimed himself [Baba u llah](#) (Glory of God) the Expected One, And, in 1846 the planet Neptune was also discovered.

Rudhyar believed that the new cycle had already started to release its spiritual-archetypal energies, which are now making their way downward into manifestation, producing a radical upheaval of public institutions focusing around the time of the massing of planets in the sign Capricorn, the ruler of large-scale political organizations. This would constitute a 'rite of passage' for all humanity and, in the destruction of existing and faulty ways of perceiving and organizing the world, humanity would discover a new way of life.

2160: Gordon Strachan in *Christ and the Cosmos* follows the standard precessional age of 2160 years using the birth of Christ as his datum point.

2874: Based on his [mathematical analysis](#) of the Great Pyramid passages, [Morton Edgar](#) set this date as the completion of Christ's Day of Restitution when the world will have gained all it has lost throughout history.

2915: [Edgar Morton](#) stated that in this year, forty years after the preceding date, the Redeemed Race will experience to the full the glorious liberty of the children of God, with complete dominion over the Earth.

The dates and attributions stretch all the way ahead to [Robert Hand](#)'s use of precessional movement combined with the actual size of the constellation Pisces in the sky, to arrive at the date of AD 2813, and beyond to the year 3550.

It is clear from the preceding that the date of the entrance into the Age of Aquarius is anything but definite and it would seem that almost everyone has his or her version of the exact point. It is certain that the transition is in the process of taking place and it will have a great impact upon all humanity.
