Miracles in Islam

Though the message of Islam was completed 1400 years ago, God Almighty in His infinite wisdom and mercy continues to shower us with His Signs yet mankind continues to resist the Truth.

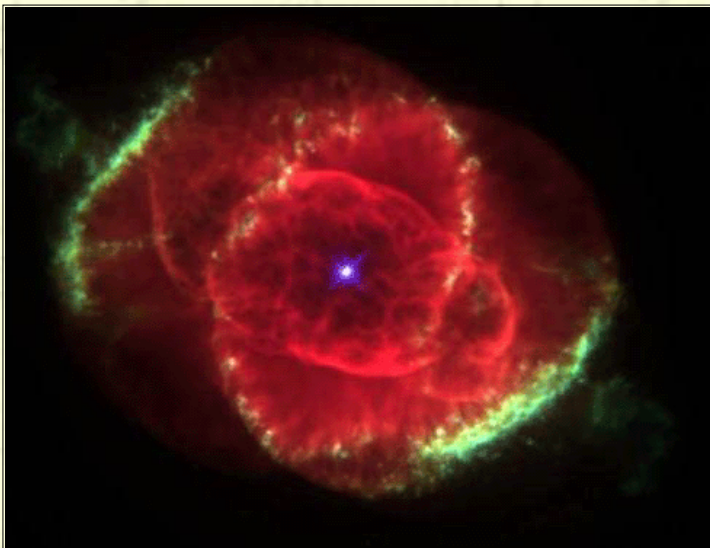

**And say: "Praise be to Allah, Who will soon show you His Signs, so that ye shall know them";
and thy Lord is not unmindful of all that ye do.**

Quran, 27:93

**Soon will We show them Our Signs in the (furthest) regions (of the earth), and in their own souls,
until it**

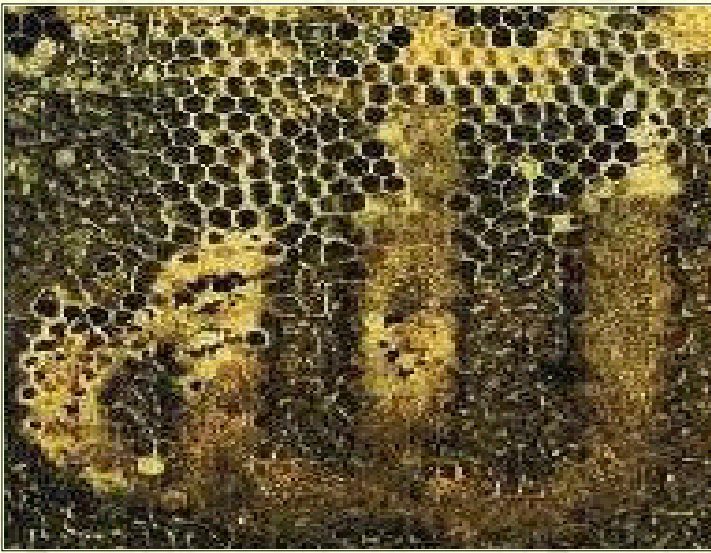

**becomes manifest to them that this is the Truth. Is it not enough that thy Lord doth witness all
things?**

Quran, 41:53

This picture of the "Cat's Eye Nebula." was taken by the NASA Hubble Space Telescope. It is an exploding star 3,000 light years away. They should have called it the "Oily Red Rose Nebula." As the Quran states on describing the Day of Judgment, "When the sky is torn apart, so it was (like) a red rose, like ointment. Then which of the favours of your Lord will you deny?"

Quran, 55:37-38.

A bee hive discovered by a bee keeper in Turkey. The name of Allah has been clearly engraved in Arabic by the bees.

"And your Lord revealed to the bee saying: Make hives in the mountains and in the trees and in what they build: Then eat of all the fruits and walk in the ways of your Lord submissively. There comes forth from within it a beverage of many colours, in which there is healing for men; most surely there is a sign in this for a people who reflect".

Quran, 16: 68-69

A recently discovered tree in Sydney, Australia. The bottom half of the tree trunk is bowed in such a way that it resembles the posture of person in Islamic prayer - the 'Ruku'. Looking closer you can see the shape of hands resting on knees. An amazing point to note is that the trunk is facing Mecca, the direction of a muslims' prayer.

A mosque still stands in the Turkish town of Golcuk, amidst the rubble of collapsed buildings, following the August 19, 1999 earthquake which claimed in excess of 6000 lives. Had the tower block adjacent to the mosque collapsed it would have fallen onto the mosque.

A living miracle, the well of Zam Zam sprouted 4000 years ago in the middle of the desert, providing water to Prophet Abraham's son, Ishmael (pbut). The well, only 4 ft deep, has oozed water ever since. The source of the water which now provides millions of pilgrims continues to baffle scientists.

10.92 "This day shall We save thee in thy body, that thou mayest be a sign to those who come after thee! But verily, many among mankind are heedless of Our Signs!"
