

Vision of a yogi in Feb 2008 in. Vashu

- > A conversation with Dr. Bohdan Shehovych re Jeff Englebrecht
- > Jeff is an incredible guy, he came up with some fabulous solutions to
- > problems in the Australian ashram which saved the collective some
- > \$60,000. He'd been working hard on three projects including Balmoral,
- > and he thought that was something wrong with his heart. He had the
- > angiogram, his physical heart was okay but he had obviously been
- > overworking, he was feeling pain and so on. So he went to Vashi.
- > To get his visa he went to the Indian consulate in Sydney, a very
- > small office, much smaller than is needed these days. The place is
- > overflowing, there are people out in the corridors, because you can't
- > open windows everyone is getting grumpy, the air-conditioning is not
- > coping and it takes two hours. You take an electronic ticket and wait
- > your turn. He'd got a ticket, number 81, he looked up at the board
- > which was showing number 40, so he was there for a couple of hours.
- > Two minutes later, a little Indian was tugging his sleeve on this guy
- > said, "Can I have your ticket?" Jeff looked at the Indians ticket, it
- > was number 41 and the electronic board said number 40. Jeff said well
- > why do you want my ticket my ticket number 80 something and yours is
- > the next in line. The Indians said well actually I've come to collect
- > my things and if I go now, they won't be ready, they'll give me another
- > number, 120 something and I'll be here all day. So I prefer to take
- > your 80. Sure enough they called up Jeff next and he was out of there
- > in three minutes.
- > He came back a week later to collect his visa and he thought will it
- > couldn't happen again. His ticket was 90 something in the electronic
- > box was showing 30, so he was in for another long wait in these hot
- > conditions. All of a sudden, the electronic board went brbrbrbrbr to
- > 91 his ticket. He got up, went to the counter and the Indian lady said
- > no it's not your turn. He said look at the board, she did and was
- > totally surprised and said, "O my goodness, 91, will we'll have to do
- > something about it. Please give me your ticket and he was out of there
- > in five minutes.
- > Now to Vashi hospital there seems to be a pattern in the first week
- > you're really clearing out, in the second week you go into a really
- > deep cleansing process. In the third week, you enjoy the aftermath of
- > it all. Jeff said the first week went really well, he was saying
- > mantras, ice on the liver, doctors, but in the second week he went
- > really deep, deeper than he'd ever gone before. He said he was feeling
- > pain in all his body, collapsing, asking the doctors what was going on,
- > falling about. All of a sudden, all of this was turned off, like a tap
- > being turned and he found himself lying there completely cleared out as
- > he'd never experienced before. He said in this situation you just lie

> in your bed at night, not wanting to sleep because your left side is so
 > cleared out, you're just enjoying the silence. He was lying there about
 > 2 AM and all of a sudden, he had a vision. It was like talking to
 > Mother but not talking to mother. He said my understanding will also
 > vision was, you see something on a screen, a part of the future play
 > out in front of you. But he said, that's not a vision I'll tell you
 > what a vision is. He said it's like looking at a watch; it's 10 minutes
 > to four. In a vision, you look at the watch, the big hand is on 10, the
 > little hand is on four, you not only see that, but you look into the
 > watch and see the workings, the little tumblers and gearings, plus, you
 > understand the concept of time. And you also understand the man who
 > made the watch. So basically, in a vision, you know everything about
 > everything to do with that subject.
 > Jeff is a very practical guy, he's been in charge of \$100 million
 > projects, these are not small things.
 > So here's his vision, all of a sudden Mother turned something long and
 > he was in it for about an hour. He said Mother communicated to me, to
 > say talked would not be accurate. Mother communicated to me that
 > Ritumbrapragya, (the divine consciousness of God), will come down on
 > this world at the end of 2012. The whole process will go on until
 > around Mothers birthday on March 21, 2013. When it comes time, the
 > living attention of God Almighty, it scans everybody, and if they have
 > had their realization, there is some sort of click in their DNA that
 > enables the divine attention to recognize that this person has become
 > realized, and then this attention, this Ritumbrapragya, goes around the
 > whole world, and collects them and makes them one. In reality they
 > become one. It just lifts everyone into that state of oneness. He said
 > this is around late December 2012.
 > This is very interesting because it's not part of the vision, but there
 > are many scriptures that talk about this time as a special time. 2012
 > is when the Mayan calendar ends, for all time. Look it up on Google,
 > there is so much written about 2012. The Mayan calendar goes on for 10s
 > of thousands of years, it's not like the Gregorian calendar, the Mayans
 > knew about eclipses to the very minute. Which means that after that is
 > a whole new era for the world. ,
 > Jeff said have you ever been in the stadium where everyone is doing the
 > Mexican wave, you see it in soccer matches. This is the way it will
 > happen and it needs a certain number of people. After this, as a
 > realized soul, you will know everything you put your and attention to.
 > In fact, you will be able to be in three or four places at once.
 > Because you will actually be everywhere, you will be at one with the
 > consciousness of God Almighty. This will come down us and we will be
 > part of it.
 > Now he said, this will need a certain number of people and the number
 > of the Mother quoted was 300 million. And Bohdan thought, my goodness
 > we've been at this for over 30 years and we've only got about 80,000.

> If you think about it we've got about 40,000 in India, maybe 10,000 in
 > Russia, maybe 5000 in Ukraine, and the rest, maybe 80,000 if you really
 > push it.
 > Bogdan thought, I've got to stop going to work, I've got to help in the
 > process in a big way. Jeff said no, be cool about it Bohdan, be in the
 > zone, it's already done. We will in fact be able to go backwards and
 > forwards in time if we wish to, for we will be beyond time. We will
 > inhabit these bodies, which will be re-invigorated because with the
 > Ritumbapragya coming down, it will change our DNA. It will lock into
 > this first key, which is our realization, and then, like a Rubik's cube
 > he mentioned, going click, click, click, click and all of a sudden it
 > will all be sorted out and solved.
 > He also spoke about the famous Einstein equation $e = mc^2$, where
 > energy equals mass times the speed of light squared. That's what the
 > atom bomb was made of, which is not what Einstein wanted, he was trying
 > to delve into truth. Jeff said we will become part of that equation,
 > consciousness, all that energy, mass etc. are one thing. We will be
 > that. Now, if we make a bandhans, things happen. We won't have to do
 > that we will think of it and it will come our way, we will want food
 > and some hot it will come our way, technically we won't even have to
 > work. People will decide to create and give it as a gift to the other
 > people in that state, out of respect and out of love. He said it's
 > rather like when a yogi makes something and gives it to Mother she
 > appreciates it much more because he sees the love of a yogi, rather
 > than something that's bought. She appreciates the love that's imbued in
 > it as a gift for her.
 >
 > He said that a lot of things which are very rare now, like putting your
 > hand on the table and your hand going through that table, will become
 > much more common. The space between nuclei and electrons is massive but
 > there is a possibility, albeit extremely rare, that your hand will fall
 > into the space between the atoms of the table. In this new state all
 > this will become more common even though currently the authors of that
 > happening are billions and billions to one. In the new state, when we
 > desire something, in pure desire, it's going to happen. So if you are
 > walking down the streets of New York and you think I'd really like to
 > see someone, in the new situation they'll walk around the corner. This
 > will be a common occurrence. He said let's go back to that electronic
 > box in the consulate office. Your desire to be out of there, the
 > electrons in that electronic box suddenly become in synch and they move
 > suddenly from number 32 to number 91. He says in the new state your
 > consciousness will interface with matter for matter and energy and your
 > consciousness are one and the same. When Mother says God is prepared to
 > give you everything, we didn't really understand that. It could be that
 > in five years Mother at once to give us everything.
 >

- > At this point he was thinking Mother, let's forget 300 million let's
- > make it 350 million. So Bohdan is thinking I've got to leave everything
- > and focus on giving realization, Jeff says no, it's done. It's already
- > done. He said when Mother got 'ill' She actually used that time, when
- > the family and the doctors were looking after her body, She actually
- > receded, went very deep, and fought tremendous battles so that this
- > whole process could fructify in success.
- >
- > So it's already been done. She's spent the last five years making sure
- > it will happen and what She said was (in the vision) that when the
- > realized souls go into that state in 2012, the ones left behind will
- > remain as they always have been, separate. And for the rest, the ones
- > who enter the new state, like going through a gate or through a wall,
- > will enter a new reality. He said that we are helping all the people to
- > rise and to elevate but in the new situation, when we go into the new
- > state, we will no longer be helping the rest. We'll be in the new
- > state; they'll be left where they are. The pressure will come off our
- > chakras and the people left behind will no longer have the benefits of
- > what we have all been doing.
- >
- > However, what he said was going to happen in the original plan was
- > Armageddon. Lord Sada Shiva was quickly going to shave the chaff out of
- > circulation. But because 300 million people are needed, and this is
- > quite a large number, Shri AdiShakti brokered another agreement as
- > part of the divine play. In his graciousness, Lord Shiva accepted. The
- > new agreement was that the goal posts could be lowered. The reason that
- > the new deal was accepted was that it was understood that the reason we
- > have got so few people was that there is a mental block generated and
- > caused by the false gurus who've done their job only too well. This
- > means that whenever we go out, people are scared, they won't come near
- > Sahaja Yoga, they hold back and so on. Lord Shiva understands that and
- > the deal that was brokered was that the 300 million people don't
- > have to be Sahaja yogis, they just have to have their realization. They
- > don't even have to know that Mother exists. In his graciousness this is
- > what the Lord Shiva has allowed. What that means, and you know that for
- > the last five years Shri Mataji has, just about in every talk, been
- > telling us to go wide and give realization to people as never before.
- > She hardly talks about anything else. She says all my powers are with
- > you - go out and give it.
- > We have screened that talk Freedom and Liberation to lots of people up
- > here on the coast, outside Sydney, and when people watch it, they get
- > their realization. When Mother was talking to Jeff, She talked a lot
- > about China and said that when the Chinese take to Self-realization,
- > there will be no stopping them.
- >
- > Bogdan was saying that he always wondered whether things would change
