... what you call – Sahaja Yogi: Licentious. Shri Mataji: Ha, licentious. Now the attention is spread out here. The chitta, it's actually spread out here, because food and seeking is here. The attention starts getting subtler and subtler, when the attention from food goes to, say, power, to wealth. After getting to the extreme of our understanding of futility of power and wealth, we start seeking. We also sometimes seek in romanticism. That's also not joy-giving. That could be very painful. Sometimes people discover that you have been befooled completely. So the seeking goes into unknown to find out what is the reality. Now if you realize that everything has happened to you without any effort, you will not put in effort for your seeking, because you have become a human being without putting any effort. If it is a living process, the evolutionary process is, then there should be no effort. Supposing we stand on our heads, will this tree grow faster? Supposing we read many

... forty years of age. So that is how we have gone wrong in our choices. The greatest mistake in the Bible was that we introduced Paul there. What was Paul? He never saw Christ. He was a man suffering from epilepsy. He['s] talked nothing about Christ. How can he understand Christ? Now there is a very big group of people in England who think themselves to be great intellectuals and theologians, are saying that Christ was not divine. By studying theology you can't understand Christ. It is said that Atma [Hindi], "By through your Spirit only you will know Him." Where is your Spirit? I don't know French, but in English Spirit means all kinds of things. It can mean "alcohol", it can mean "a dead body" and it can mean your Atma. So now under these confused conditions one has to talk about something that is very deep. This is the knowledge of the roots. This we knew in India thousands of years back. Fourteen thousands years back, Markandeya wrote about it, and many people

... they only know how to make money and befool people and how bombastic they are, they talk so big, no love, no compassion.So all these qualities which are dormant, which are already placed within you, human beings were specially created by God, special people. This speciality has to be just manifested. If it is manifested, you'll be amazed. First of all you should get rid of your conditionings. You belong to this organisation, that organisation. They have organisations here that have a (unclear left side or right side) we have a tendency to club together, but we club together under artificial ideas and artificial circumstances. In Sahaja Yoga you do not club together, you are aware that you are part and parcel of the whole. Like this finger, if it is hurt, the whole body is bothered about this little finger. Such concern, in that concern there is no hypocrisy, there is no obligation, there is no way you will find people are jealous. Supposing somebody knows better, I've not seen

... birth, you will be surprised, do you know where? Can you tell? Hasan and Hussain, who were killed in Karbala were no other than Mahavira and Buddha. But who will tell all this, now who can make you understand this, now this responsibility has come on Me. So, I am telling you. I am telling you this because when your kundalini is awakened, then if your ego and superego are caught up, then you have to take the name of Buddha and Mahavira, these are two of the rudras in Akadasha Rudra. These are very great rudras, and when the last judgement will take place then many more will come, you will know about these two then, you will see that it is difficult to get rid of ego and superego. Then if you are a Hindu, you will have to take the name of Hassan and Hussain, and if you are a Muslim then you have to take the name of Buddha and Mahavira. Without these, you cannot get rid of ego and superego, especially ego. Now these two nadis above which the pre-conscious rotates, is controlled by Shri

... establish yourself is your own doing, where you put in your effort to establish yourself. But to get the light is all right, then you establish it yourself; look after it, grow in it, mature it, enjoy it. Then only, you enjoy. Unless and until you are grown, you cannot enjoy. So you have to grow into it, then you will enjoy, and that is the Kingdom of God which is being promised to you, in which you feel collectively conscious. This is what it is, and that is the Last Judgment, which has been told. How are they going to judge you? Are they going to weigh you on the scales like the beauty contest? Think about it: how are they going to judge you? (part missing)... of cleansing yourself, going ahead. And takes time. It's not (part missing) be cleansed through this Kundalini. She works it. ... mafia', and people are literally frightened of them. They are so afraid of them they think that: "If we divulge this thing, then we will be finished in our progress." And there are many people who have come in this country, your country - also in other countries - and have really exploited you completely and taken full advantage of your spiritual naivety. One has to know that it is a living process, the end of your evolution. This is the time which I call as The Last Judgment. In this only, you are going to be judged. And this is not going to be paid for. You cannot pay for it, you cannot pay for it. You have to just see that you are judged where, that's all. It is a different attitude when you go to a guru who takes money, and a different attitude when you come to Sahaja Yoga.Please remember that this is a gift for what you are. And also, if there is any problem, it can be corrected and can be put right. It's all free and it's a gift, because it has to happen, it is all promised.

... He's alright. You see this is the only cemetery business. You have brought with you the problems of those people of the cemetery. They should take their birth now and they should come back to get their liberation. So it's good in a way. How are you better? Yogi: Yeah, I get a lot of heat. Shri Mataji: Now what has happening just now? Better now? Is cool coming in? Yogi: Yeah, it's coming in better now. Shri Mataji: So, you write the name of the cemetery. Get it nice now! Yogi: Symmetry? Shri Mataji: Cemetery! Yogi: Oh, cemetery! Shri Mataji: So that! When you write that you beat all the people who are there. Give it a bandhan. Alright? and they take away, alright? Gavin Brown: So Mother, if it's the Last Judgment then there must be the resurrection so that they come. Shri Mataji: That's why they have to come! You see that's a good thing. This is the last judgment! I didn't tell you this? Yogi: You did yes. Shri Mataji: Alright. You have

... tell you, on Guru puja, what things you have achieved, and how many things you have got within you, built-in now, which are working, and how your chakras are awakened through Sahaja Yoga. As he says, “Yes, it has happened.” But what are we doing about it? It’s is the greatest of the greatest that can happen to anyone; that you know. Also you know this is the greatest happening which was prophesised long time back as the Last Judgement. You know that this is the way you are going to be judged, so we have to work very hard, we have to work. It is effortlessly given to you, alright, but to maintain it, to keep it up to go higher, we have to religiously work it out with a very humble attitude - receiving more and more and more, imbibing it into your being. Let it trickle into your being, completely covering it. Let that joy, that Eternal Bliss come into you. I am so anxious for that. Do not make yourself a small person. Have a bigger vision, have bigger ideas because now you belong

... Mahavira. But I told you that they were the children of Rama and thousands of years later, they got their Realisation, and they are like incarnations only, you can say, but they are different styles. We have no time to waste now. This is the Last Judgment where we have to give up all our nonsensical ideas. You see, it’s difficult to talk to people who have made business out of God, or some sort of a political issue out of a God. But sensible people should know that they have to know themselves first of all, they have to become themselves and then they will know that they are really a part and parcel of the whole, of the Viraat, the Akbar. You cannot know religion from outside like these people are saying, “Allah ho Akbar, Allah ho Akbar,” and killing you! Or sitting in the Church and, “Let’s us sing hymn number such and such.” Or in our temples selling all kinds of drugs. That’s why this contrast one doesn’t understand how religious people could be like that. And then

... cancer, heart attacks, physically, diabetes, all the incurable diseases, multiple sclerosis, all are awaiting, gout, all kinds of diseases, mental problems, people can't sleep. It's all going towards destruction. You are being destroyed because you have not achieved the absolute that is required today for your existence. Today is a very different time. One must know it's the time of Last Judgment that has come. And this is the way you are going to be judged. This is the chance you have got to judge yourself and that God is going to judge you. So you cannot avoid this. If you try it is not going to help you. As a Mother I have to tell you, you must have patience with yourself, respect with yourself and you must know that you are extremely valuable and don't fritter away yourself for small, small things. All the time we have wasted our life with all sorts of nonsensical things. We have no time for God, we have no time for ourselves and we have no time for something for which we are

... champagne! And after the funeral also real funeral also they'll celebrate thus, I don't know why, but they take champagne. How can you celebrate Christ by insulting Him? He came to enlighten your awareness because He respected your awareness, the point at which it had reached, but you are trying to put it down. Is this the way to understand Him? And He has promised that you are to be baptized, you are to be born again. And now, in Sahaja Yoga, this promise is being fulfilled. So be joyous, that here at the Agnya chakra, again Christ is born within you and He's there and you know how you can ask for his help, always. But the main thing that one has to understand, that the time has come for you to get all that is promised in the scriptures, not only in the Bible but all the scriptures of the world, the time has come today that you have to become a Christian, a Brahmin, a Peer, through your Kundalini awakening only. There is no other way out. And that your last

… shops as the Ganga and Yamuna swelled. This is the beginning. But today I am telling you, you must think about the future. You must be wary of it, the Kalki incarnation that is about to arrive, it will not warn you or request you, it will not work hard on you or give you realization, it will not cure your cancer. It will just come with a sword for the Last Judgment. That will be a catastrophe. That will be its work. Sahaja Yoga is very good – it has integration, it has joy, it was bliss, it has physical and mental well-being, and, it has the Almighty's blessings. It is all very beautiful. But in the Kalki era, this won't happen. You have heard about the Kalki incarnation and it is about to arrive. There is little time left for it. In the time being please awaken your spirit (Atma). Your spirit and Kundalini have always resided within you. But I don't understand what gibberish people talk about Kundalini – it's your mother. And you have been listening to all this. I don't

… necessary first to generate the power of love through Sahaja Yoga. It is very easy. Sahaja Yoga is not the blessing of one year or one yuga but of all the yugas. You have to get it. You have to get to know your Atma. You have to know your Self, and the Last Judgment is here now. There is no need to think of another Last Judgment coming in. Here, now, by knowing your Atma you will get the power of God flowing through you, like when I put it to the mains, the power starts flowing through us. And then this power can communicate that dynamic power. What is this poverty? It's at the Feet of that Lord. You can just throw it away. I agree that going to temples and churches there is no God. But even going to poor will not help, I can tell you this much today, but going to the roots of poverty, by understanding why there is poverty and why human beings behave like this. You have to transform the whole thing. You are still in the flower state. You all have to become fruits. All of us have to

… careful. Do not play about with your Self. Do not go down but come up, come up, and come up. I am here to help you. I am here to work for you day and night; that you know I work very hard for you. I'll spare no efforts to help you and do everything that is possible to make you all right, to pass this examination of Last Judgement. But you have to cooperate with Me, and you have to go headlong about it and devote most of your time for Sahaja Yoga and for imbibing all that is great and noble. Kalki is a very big subject, and if you see the Kalki Purana, it's such a big book. Of course, a lot of trash is also in there. But "When is the time coming?" if people say, we'll say this is a living process. When the work will be finished, when we will see that there's no more chance of having any more people in this line, Kalki will come down. Let us see how many come in. But there is a limit, also, of that. So, I would request you to go out: call your friends, call your

… Sahasrara Chakra. This work is of collective nature; I have therefore to do it. In the case of one and all, I want to tell you about Jesus Christ, Guru Nanaka, King Janaka and a number of other incarnations and the way they relate with the collectivity. Similarly, I wish to talk to you about incarnations of Shri Rama, Shri Krishna etc., and also about Shri Shiva, because all the powers of these Gods and Deities are in us. Now, the time has come for collective consciousness to manifest. In this Kali Yuga, all those who are seeking God shall find Him and millions of people will be able to do so. Sahaja Yoga is the Last Judgement. This is described in the Bible. You are judged only after you come to Sahaja Yoga. For that purpose you however,

have to surrender yourself completely after coming to Sahaja Yoga. After getting that, which means everything, it is important to dwell in it, to be settled and stabilised in it. Many people ask Me, "Mataji, when would we be stable?" The answer is

… thousand people must have been given vibrations. But how many of these really progressed. To say, very few. Because they look in the opposite direction. There is this guru who respects me also. He was telling me that,' donkeys should be given donkey work. Why do you keep on giving realization.? What is the need?' I said,' there is a dire need, This is the time for that. If realization does not happen now, then this is the last judgment. It will not work like this. Now write your own judgment. Whatever happens after this, whatever loss and profit that will happen, eleven rudras(Ekadash Rudra) will come in this. Eleven Rudras. Only one Rudra is sufficient to destroy the whole world. But when eleven Rudras come, you cannot imagine. They will obliterate everything. Before this, for people whose judgment has to be done that judgment should be done now by Sahaj Yoga and people should accept it. But for most of the people , they get berserk over small small things and they leave

… the spirit. That means on your central nervous system you can feel the spirit flowing. This is the energy of love'God, Which Christ had, which Christ had. Which was explained very well by Adi Shankaracharya as Soundarya Lahiri or Chaitanya Lahiri. Lahiri means the waves, Soundarya means the beauty, the waves of beauty, the waves of consciousness. Now your attention is enlightened. You start feeling others on your fingertips. You start feeling your self on your fingertips. Now you get separated from yourself and you start seeing your defects as something outside. The identification with your outside is lost and you start seeing what's wrong with the outside. Also, you are empowered to cure that. This is what you have to see, its your own power of your spirit within you. 32.35 It is that.. everything has been prepared beautifully and delicately within you. Only in your frantic seeking, you have spoilt your (UNCLEAR being). It can be cured also. So in the last judgment, you are not

… of Sahaja Yoga still in England, I would say. Really ardently attached to it by which you develop yourself very well and develop this tree of Sahaja Yoga in your own country. Because you have to save so many. The Last Judgment has started. It's started. Through Kundalini awakening only you judge yourself. You know what are the centres you are catching, what are your problems. You know what are the centres others are catching. You judge yourself. Supposing a person comes and tell me, "Mother, my Agnya is very bad." Do you know what it means? That, "My ego has developed." But [if] you tell somebody, "You have got an ego." - you will have a punch on your head! But the person himself comes and says, "Mother, I see my ego." You start seeing yourself. You start seeing your problems, because you are out of it. And then you can cure it also and make it better. You improve it and you are better. You judge yourself and you judge yourself with love and understanding. You don't

… happen because this is the last judgement. This is how you are going to be judged through the awakening of your Kundalini. This is the last judgement. There is not going to be somebody standing with a, a weighing machine and weighing you. It is the Kundalini, which is the centre point, which is the central

point, what you call pointer by which you will be judged, all of you. And you will judge yourself. But this judgement is not the way people think, that it is a second judgement. Though the Kundalini rises in split of a second, but you will be given complete chance to correct yourself, to be alright, and that is what it is. On such a one-day lecture I think I have said quite a lot about the Kundalini and tried to cover-up most of the points. But in details we will be dealing with when I come back here for three days and we will have to do something about it. Now, if you have any questions please ask Me. That's a good thing, because unless and until you ask Me questions I don't

Is there any question? One more, and then I will do the thing. Anyone? Seeker: Mother, Mother, you mentioned about emergency, what did you mean? Shri Mataji: Are you already frightened? I said 'emergency' because the Last Judgment has started. In the atmosphere it is. No earthquakes for you, all right? Can't you see [that] there is emergency, people want to have it, and you can feel the emergency, everywhere there's a talk about it. Everyone knows there is some sort of an atmosphere of emergency. Everybody is running fast, nobody knows why. You don't worry, you are a realised-soul. Emergency is that you give more Realisation to East End (of London) people! (laughing) All right? So, anymore, no, all right. Now, why I have asked you to ask questions, that after

… may not get any realization and one who is just standing near the street and says, "Mother," he might get it. This is the Last Judgment of your quality. This is the Last Judgment. And one must know that the Last Judgment is not going to come with a big weighing machine. How are we going to know? Through Kundalini awakening the judgment has to take place. And you are judged and judged and judged. But this judgment is so beautiful that you are not damned with anything, you are not completely imprisoned. But you are given a chance to improve, to reform, to be perfect, and to enjoy the beauty that is promised, the beauty that is described, the beauty that we are, the beauty that is Truth, that is bliss, that's Heaven. That's what it is. I'm talking about Sahaja Yoga. It sounds very fantastic. Everybody has used my words. I went to America and for that, I was the first to go there, and I was speaking; they had all tape recorders, everything they taped it and those people who

Why do you blame us? You better pay. Even if we try very hard we'll have to have them here because the way we love our children, the way we look after them, whatever, we may be poor, but we have heart for them. And we are not Romeo and Juliets all our lives. I mean, even at eighty they are divorcing. I mean, all sorts of nonsense going on. All the heroes and heroines like the, this Mrs. Kennedy business and all that. I mean, I can't imagine these women. They will be thrown out of everything, of the society, all such women. People won't see that faces in the morning. If you see such a face on the newspaper in the morning they will wash the newspaper, wash their eyes and throw it in the dustbin. Such inauspicious people you have here as [unclear] there's another seven times married

What is Happening In Other Lokas?

1980/06/30

What is happening in other Lokas? Caxton Hall, London, England. 30 June 1980. Today, I don't mind to tell you about what's happening in the other lokas, which we don't see, of which we are not aware. It may frighten you a

little bit, but the time has come for us to know how are we placed in relation to the Whole, what are the plans of the Divine, and how are we going to fulfil them. Now most of you are here Realised souls. Some of you have come first time; you will also get your realisation. But the common point is that you are all seekers, seekers of God, seekers of peace, seekers of love, that's a common thing. But this seeking has come to you not for your own sake, for an individual ascent or for some achievements of a place from where there is no return, but this is the Last Judgement that all the human beings have to face. They have to go through it and to achieve their last, achieve their place in the kingdom of God. Today you are sitting before Me, you have been

… that we have to get transformed. The whole human race has to be transformed. And this is the Last Judgment today. It has started. You are going to be judged by your Kundalini. How? God is not going to weigh you, how many seers (an Indian measure equal to 1.25kg) you weigh. Like the way you have here beauty competitions. It is the Kundalini, which is going to say how far you are. I have seen people in Birmingham before I have come. I found, I am sorry to say, but in Birmingham I have seen [that] people are very frivolous. They come to my programme, get their Realisation - finished! They are not bothered about it, to see what it is, what they have to do, why they got it. It's like Christ's parable that: you throw some seeds here and some seeds there and so many of them are just wasted. It's such a sad tale of human callousness and lack of self-esteem. Absolutely, it is a very sad tale. You do not know what we are facing. And that's why people play with their lives in such a cheap

… all is love, but you cannot feel it. For example if I say there is music on here and there are lots of pictures going on. If I put a television here then you will realize what I'm saying is true. In the same way this has to happen to you. As long as it has not happened to you why should you believe Me? But it has to happen. The time has come. This the Last Judgment. How God is going to judge you? Only by raising your Kundalini: you yourself start feeling the problems within you of these centers. You start judging yourself. As you grow you understand how these centers are working in you and in others. As soon as you get your Realization you start feeling the Cool Breeze flowing from your hands. But these fingertips where all the sympathetic centers are there get enlightened. For example one, two three, four, five, six and seven centers are there. They actually get enlightened. Even a Realized soul, maybe a child can feel. Just putting hands towards a person you can feel his centers,

… said "all right, thank you very much". The attention immediately receives from that point. One has to understand that the time has come for the Last Judgment. This is the Last Judgment. Only the Kundalini Awakening is the way you are going to be judged, there's no other way. How God is going to judge you? Just tell me. Only way is by giving you awakening. I've seen how it works out. [Mother inquiring] This gentleman wants to come in or go out? This is the problem, we have people and people and people. But we do need people who have lot of self-esteem and they are real people, they are ardent seekers and they want it. Sahaja Yoga is not based on anything which is a showmanship or anything superficial. It's a deep thing. If you have that depth then only you will appreciate it. If you do not have, you will not. It's not a shock. It's the deeper urge within us which will work it out and if you do not have that deeper urge, it will not work out. But despite all this I must say,

and right side movement in your being takes you to these satanic forces which are let loose. Either they could be very ambitious or they could be very sly. You have to achieve this position of supreme love and you will be amazed how dynamic it is. Of course, I would say, Kundalini has been described since thousands of years, but the time has come for you to see the a-mas manifestation of the world, because the time of blossom has come. When the tree is just beginning, it has only one or two flowers. But when the blossom time comes, thousands of flowers can be converted because the time has come. I would say this is the last judgment. God is not going to make you sit on some winged pan and see what weight you have got. It's the Kundalini, which is going to rise. She is the one who is going to say what are you. And that is how the

... The time is short. As I told you Christ is going to come back with His eleven destructive forces. He is going to destroy all that is useless. This is your last judgement. Kundalini awakening is the way you are going to be judged. The last judgment has started; you just face it. All grace is with you. I'll work very hard but you must also have determination. We all have to work hard and share the duty. May God Bless you all. [To a Sahaja Yogi] Can you ask them to take out the shoes and put both their feet on the ground? Christ's Mother was the embodiment of that incarnation. But She was kept completely in the dark because Christ did not want that Her protocol should be disturbed. If anybody had troubled Her, He would come down on this Earth with eleven destructive powers. But He wore his cross because He had to show that resurrection is the aim of life. ... you become the master of your being. You are not to give up anything. You are not to sacrifice anything. It's a happening within. Once it happens your priorities change. Everything changes automatically because you have found out your Absolute, you have found out your meaning and you become a very different person. This is what has to happen to all of you. All the people have to get it as much as possible. This is the last judgement. This is how God is going to judge you. He is not going to put you in a, say, a weighing machine and see how much you weigh. He is going to judge you through raising your Kundalini. And this has started about I should say, ten years back. [UNCLEAR] in the villages, not in the cities because cities you see, city people are seeking money. It's not for people who are just seeking. It is made for the people who are seeking God. And in the villages people are simple, no complications. They get it very fast. For the cities and for the people like that there

... All these problems are bombarded on you through different media. You see the whole world going into a shock. They don't feel this. They are ignorant. They don't know anything about what's happening. Anybody today who is aware is feeling the emergency of something happening to us. Something has to happen. They are aware that unless and until this happens, you cannot be saved. Atomic energy problem. There's another one, the wars are going on. Earthquakes are coming. People are saying that all the stars are going to fall into one line. Everybody's feeling there's going to be something horrible. The reason is the Last Judgement has started. It has started, and you have to go through it. You are going to judge yourself. There is God within you, which is going to judge you, and you are going to be chosen by your own efforts, and you are going to help others, many many thousands of them, to be to be light. A certain number is needed. That's all. For every, every evolution a certain number

... drama. And you are surprised how God's play works, how His illusions play with us. Life becomes such an enjoyment. For you all have to enter into the Kingdom of God. I've told you that the Last Judgement has started. It is going to happen through Kundalini awakening only. Is God going to... is God going to put you on some weighing machine? Kundalini is the central point, pointer, which will show how far you have gone left and right. And you will correct yourself. Because you'll come out of yourself and become one with your Spirit, which is your real Self. And you will know everything about yourself and about others. I'm very happy that today there are so many people, and I am sure today it is going to work out even better. Tomorrow I'll tell you about other centres and also what to do after Realization. That is much more important in the West because there are many preconceived ideas about Realization and about God. God is what He is. You cannot have your conception

... difficult. You have to be a noble person, Saamaniya, means ordinary, if you are over successful the ego has to be punctured somewhere, otherwise too much, very big, the Kundalini cannot enter it. If there is balance of ego and superego in your head then it will be able to work out. But even if you have ego it can be given balance, you can be cured, even if you have sickness it can be done, everything can be done but today that the time has come where thousands can get their Realization and can be established because the last judgement has started. The last judgement is going to be through Kundalini awakening. As if the Kundalini is the pointer in the balance. It has started now. People are not aware that it has started. They do not want to be judged as yet but time should not be lost but this judgement is so beautiful that when you are judged you get the powers of your own, of your love. You enjoy the bliss of your Spirit. You become so peaceful, all the tensions disappear, you

... are very happy people. After three days you find the person has committed suicide. We are not aware still that this is the most important, the most fatal and vital time in the history of human beings. The Last Judgment has started. We are facing the Last Judgment today. We are not aware of it, and all the satanic forces have come out, like the wolves in sheep's clothes. And they're trying to attract you, and you do not judge them. You only sit down and judge the reality. It has started. It's a fact. It has started. Now let us see, from God's point of view, how he's going to judge you. It is easy to say that we don't believe in God, very easy to say that 'we don't believe in this government'; but if you do anything wrong then you know there is a government acting. In the same way, it is very easy to say that we do not believe in God. He's so compassionate, He's so loving, He's so kind, that He has given us our freedom to know ourselves. And we rely on it; we take Him for granted.

... has come for us to know the truth and to prove it. So far we have been told but nobody has been able to prove it. That is why I am here before you. This is the last centre, which we have to cross. It's called as the Sahasrara meaning one-thousand-petals-centre. It is surrounded by another centre called as Ekadesha Rudra. It's the last incarnation that is going to come on this Earth. This incarnation is going to destroy everything that is unnecessary. It is not going to persuade you. It is not going to request you. It is not going to give you Self Realization. The Last Judgment has already started. Kundalini Awakening is the only way you are going to be judged. God is not going to put you into a balance to see how much you weigh. He's going to raise your Kundalini and He's going to know what's the problem with your chakras. He's going to know what you have been hankering after. He's going to know what harm you have done to yourself and to the society. But the judgment

... answer. Suppose you ask the question "Is there God?" ask a question, you'll find a cool breeze coming into you. But if you ask something else which is a wrong thing, there will be no breeze. So you jump into your understanding in such a manner that it becomes an absolute value. Your value system changes. This is what you have been seeking, you will be seeking, you have to seek. And this is what you have to have. Have, because The Last Judgement has started and you are going to be judged through your Kundalini awakening. It's most surprising that, in this judgement, you are not given your punishment outright. You are given all that is needed. All the assistance, all the reformation that you need, all the transformation you need and all the information that you need. And once you accept in your own freedom this greatness, you are accepted as the citizen of the God's Kingdom and you enter as a prince to rule there! It is difficult because people are so superficial, they do no want the

... prove every word of what he has said. But people have no time. This is the worst part of it. They have time for everything they have no time for themselves. You ask somebody who was coming today he said Mother I can't I am sorry he said I don't have time. I said really? Whats the matter where are you going? Oh you know somebody has come and I have to take him to Taj Mahal hotel. He would like to have some drinks you know. I said why . See Mother you know you have to please this fellow otherwise I won't get the business. I said then what will you do with the business? How many business you have got? Already you have so much business that you have to worry your head about your black and white money. Now what do you want to make a blue money? We have no time. But I must warn you now that the time has come for you because this is the last judgement which is the promised. Is not that simple as you think. You better get yourself judged. Don't miss because this is the last judgement

Get transformed

... Me I didn't know what was happening, the thoughts were coming like horns and he was attacking everyone. He was an extremely disturbed person. When his sister, elder sister, who is another intellectual saw him so transformed she said, "Who has transformed you of all the persons?" and then she took to Sahaja Yoga also. In the end I have to tell you that the Last Judgment has started. The Kundalini is the way they are going to judge you. Actually you are going to judge yourself, your are going to be given complete chance to improve yourself and there are many great souls taking birth on this earth. There are many children born on this earth who are realized souls. Today we have here four of them who are playing about. They are born realized. Like Antoinette's son is great. He brought a very nice picture to Me today made by him, painting and he told Me, "This is the fort of Shri Krishna". I don't know from where he knew and all His Divine weapons are in this place and all those people who

... will say we are happy or we are unhappy. I have met some people who told Me, "Oh we went to that Guru we were very happy." I said, "You could be happy in the pub also. What is happiness?" Happiness is not the way to judge any one, neither unhappiness. Unhappiness comes to you through this super ego and happiness through this ego. But joy has no double face, joy is joy. In joy, you witness, you witness the whole thing. And when you are joyous you feel the whole thing, the joy itself coming on you like grace falling on to you. It's so beautiful that you just get lost into it. Now the time has come; the blossom time has come for many people to get Realization. They have to get it. This is predicted, the time has come that you all have to get Realization. This is actually the last judgment. But the last judgment is not going to start by the way people think it to be - like we will be put into these weighing pans and weighed. It is not that way. It is going to be through some sort of a

... has to happen within you. This is the Last Judgment because that's the only way you can be judged. God almighty is not going to have a balance or something like that in which He puts you and weigh how much you weigh. We have - you can see here clearly - there are three forces acting within us. The first force is the force of our desire and the second force is of our action. By the first force we have our emotional side and by the another one we have our physical and the mental side. This is the very subtle energy within us which is flowing and is expressing itself - manifesting itself outside in the gross as sympathetic nervous system. Now, the central line that you see there represents whatever awareness we have so far achieved up to the human level. There is still a big gap within us which has to be crossed. This is the gap of our seeking which you can see as the green part here. In this area we seek. We seek through our central - that point there is called as the Nabhi Chakra

... understand what is reality and could feel it, I'm sure, they'll go in for reality and not for fake. By self-realisation you see your reality, you feel your reality, your absolute, that is your self. Because before that you lived in the realm of relativity. All human enterprises in political, or economic field are all relative. You have to find the absolute and that is your only urge behind all the other urges. When this urge is very great and when people understand that there is a market for such an urge, people come with their own economic enterprises in the field. It is but natural for evil to react like that. Apart from that, if human beings have to rise to a higher consciousness, there must be a satanic effort also to pull them down. As self-realisation is the last jump into your reality. It's all right, leave it, they are playing, all right. It's all right. What's wrong? Let him play. As realisation is the last jump into your awareness in this Last Judgement, it is a

... going, thousands of people going there, they are also misled. Ultimately all those who are true seekers will receive their Realisation. Even those who are not will receive it. But first those who are seeking are the foundation stones. They have to build up themselves in such a way that this big edifice could be raised on its back, on its foundation stone. You people have to be such strong Sahaja Yogis, such strong Sahaja Yogis, that from your own life others would take the lessons and understand that this is something that has really transformed people. Because the time of judgment has come and of transformation. The Last Judgement is not direct but through transformation. It does not fail much. If you do not fail it, it is not going to fail: it is going to work out. All sorts of permutations and combinations it has worked out — all sorts. Now there's no horrible guru I have not tried. Of course, sometimes I hear some new names from somebody. The other day I heard something

... This is what is the meaning of Sahaja. Sahaja means born with you. The, the flower it is born the right to become a fruit, Sahaja. And Yoga means your connection with the Divine. So Sahaja Yoga means you are born with the right to be connected with the Divine. And that is your right which you must have and that you are going to get.Now the times are very precarious, I must tell you. These are the times of last judgment. It has started. The last judgment has started. Youwon't believe. That's why thousands of people are seekingand ... being born. There are many little realised children I see who are born realised who are born just for the Last Judgment.The maximum will be born during this time because they are to be judged. That's why population growth is so big. All of them born to be judged but they don

... out. But for Indians it is intrinsic. See because everybody talks of Kundalini. But yesterday I met another funny fellow. He told me that Kundalini starts from here. I said, "Very nice job." He said, "My guru has told me to start to meditate on here." I said, "Really?" He said something I can't understand, "You have to put all the attention here." I said, "It will break and I won't be able to put it back." I was quite amazed. And he said, "My guru has told me to concentrate on here, the Kundalini is here." I said, "Really? This is something news to me that Kundalini is here." So all such nonsense that is going on. So what to do with them, such people? And now if you say that they are not ready, you tell them something else and manage it. They are going away from reality. You have to tell them this that there are many ways to waste the time. Last Judgment has started, there is no time to be wasted. And you must tell this fellow Mahajan, that he behaves responsible. This he must

... be frivolous, it won't work out - you are the loser. I am not the loser, I don't have to gain any thing! Now, how will it work out?First you will find there is not thought in you mind, thoughtless awareness, many people talk about it, thoughtless awareness ... and talk of Self Realisation. But have they done it? Of course, it is needless to say that once you get your realisation you get your khamsha (spelling?).That Krishna has said once you get your realisation your problems are solved, physical, emotional, mental, all problems are solved and you become absolutely relaxed. That goes without saying. But I'm not here to sort of cure people and go to hospitals. Nothing of the kind. It's just who are the seekers will be blessed because this is the reward of this last judgement.(Just close your eyes.)And the first thing you will feel will be thoughtless awareness, you won't find any thought in your mind, if you try to see your mind you'll find there is no thought. Just close your eyes and

The Time Of The Seekers

1981/06/01

"The Time Of The Seekers", Caxton Hall, London (UK) ... that so many seekers are born, so many of them, they are really seekers, that's a category, a category of human beings who are seeking something beyond. It's a fact, I mean there was never such a time before that so many seekers were born on this earth. This word was used sometimes for one single person or maybe about ten at the most but two thousand years back you could not find so many seekers on this earth. I mean they are seekers, why there is so much seeking and why people are seeking, why they have this temperament of seeking, what is the reason? There must be some reason for it and as we all know in Sahaja Yoga that the Last Judgement has started and the Last Judgement is going to work out through the Kundalini awakening and everybody is now trying to seek in some way or another, aah the whole pattern has worked out in such a way that the seekers are born at this time and they have a background too. They are not just

... them out. No doubt about it, but before that time, you have to be counselled, you have to be told how to enter into the kingdom of God. You have to become what you are because the last judgement has started, this is the last judgement. How God is going to judge you? Just think of it, is He going to judge you the way you are educated? The way you are dressed? No. Through your inner happening, through your inner understanding and light that is within you. That's how he is going to judge you. I'm here to give you light that is your own, just an enlightened light enlightens you. I don't want to pamper your ego or to run you down but I want to tell you that you should become yourself. I see the beauty within you, I see that diamond within you, that's why I'm doing all this work. You do not see it, I just want you to feel it and have it, it's a very simple thing. What is there to be so much worried

… sprouts, if you just throw them, they can be destroyed. So, one has to be careful for at least a month to preserve this sprouting. Once you have managed this one month then I am sure it will settle down. You don't require anything much to be done; few methods of cleansing yourself, sustaining yourself and keeping yourself afloat. If you could dedicate only a month to yourself you will definitely come up, no doubt and people have done it I mean in places like Brighton now I would say in France it has worked out, but Cambridge has been little disappointing. I hope this time you people will take it up little seriously. Because it's the most important thing that you have to have and this is the most vital thing. If you do not get it and if you are not there, only thing I have to tell you that the last judgment has started and you are going to be judged by your Kundalini. You yourself you are going to judge your Kundalini and you are going to judge your own chakras; there's a big rope

… this. But you cannot explain how it has happened. Neither you rationalize it that because of this, it has happened, because of this, this has happened. But it's logical that you see it yourself. If you are really truthful, then you have to give certificate to yourself. Nobody is going to give you certificate nor somebody is going to say, "Oh, you are the epitome of everything," nor somebody is going to say that you are condemned forever because as I said yesterday, the last judgment has started. Believe Me, it has started. And the judgment is going to take through the Kundalini awakening, through this residual force which exists within the triangular bone there. You can see with your naked eyes in some people, pulsating. It rises, and it pierces through the fontanel bone area where you can feel the cool breeze coming out. You can feel it, again I say, the cool breeze coming out of your being. You can feel the cool breeze coming towards you if I'm sitting here, or you can see it

… That's why they are trying to destroy you in so many ways. I: You are saying we getting very close as a race of human beings to a point where we will all get Self-realization; that time is coming now. Shri Mataji: Yes, yes very much. That last judgment has started. I: How long will it last? Shri Mataji: Depends on how long you take… (Laughs)….(Both of them). You see, maximum time will be given for people to be resurrected. I: That's hundreds of years or ten to … Shri Mataji: Not hundreds. Should not be hundreds. But there should be sufficient time for many people to get realization, and then few are left there because already the hell is full of people there and there isn't much room for others to go in. I: And those evil forces are massing too? Shri Mataji: Yes, they are. They are very much in hands-in-hands and they are all joined together and they are working it out. Destroying our Spirit, destroying our attention from Spirit, they are taking us away from reality. They

Now whether you are Hindus or Muslims or Christians or Russians or anything this can happen to all of us and once it happens we know that we become part and parcel of one God. We are all children of one God and we have to understand, unless and until we understand this we are not going to be happy. We are not going to live happily. And there are going to be problems and problems. The world is under shock now and they think that tremendous things can happen to us or horrible things can happen to us and they are very precariously placed now. But God is alert, nothing can wrong. He is there to help us and I'm sure one day will come when so many of you will be Realized souls. I mean this is the
