"But small is the gate and narrow the road that leads to life, and only a few find it... Then I will tell them plainly, 'I never knew you. Away from me, you evildoers!'" After fifty years few have found it, yet another prophecy of the Savior that has come true in the Age that has Come. (June 5, 2021)

June 5, 2021

Dear Violet,

This is such an incredible post that, among other insights, gives evidence as to why ears cannot hear Jesus speaking 'again,' today. My *pranayama* to You for the deep insight into what I regard as sacred secrets and my faith that HALF THE SKY will triumph.

For those in Standard Two "Quantum Mechanics" it is a required reading because it explains why most ears have not heard Jesus 'speaking' again for the last 50 years.

There is every possibility that even the ears of deeply dedicated-to-Jesus Christians like Shifali Train or others here may suddenly stop hearing 'Jesus' again, and this priceless post of sub-conscious conditioning (religiously corrupted data) explains how and why.

Say, if I ask Shifali what does Jesus means by "Truly, I tell you this generation will not pass away until all these things have happened. Heaven and earth will pass away, but My words will never pass away," she will access her sub-conscious data (years of religious conditioning) and explain it.

But if you respond, "Didn't Jesus say that He will be sending the Comforter to teach all things that a three-year ministry was insufficient?" the probable answer is that that happened 50 days post-Resurrection. In short, because of the corrupted data, there is no way to change a conditioned mind.

(If your Christian computer does not have data of Jesus' Comforter coming in the Age that has Come there is absolutely no way it can be accessed. It is just non-existent!)

By "religious corrupted data" I am not only talking about Christianity. All who claim to be affiliated with any religion—Hinduism, Islam, Sikhism, Judaism, Jainism, Buddhism—are conditioned by data that has been corrupted over the centuries of transmission.

(If your Sikh computer does not have the data of Guru Nanak's [Aykaa Mayee](#) (THE ONE MOTHER) there is absolutely no way it can be accessed. It is just non-existent!)

(If your Muslim computer does not have data that "[We will explain Al-Qiyamah](#)" there is absolutely no way it can be accessed. It is just non-existent!)

(If your Jew computer does not have data of the Messiah coming to declare the [Great Age of Salvation](#) after the formation of Israel there is absolutely no way it can be accessed. It is just non-existent!)

(If your Buddhist computer does not even have data of the [existence of a soul or God](#) there is no way it can be accessed. It is just non-existent!)

The tragedy is that no amount of explanation or evidence or exposure will change them, and I am talking about 25 years doing just that ... starting with the Comforter's disciples who call themselves "Sahaja Yogis" but do not want anything to do with Jesus and His message of the Resurrection.

That hopefully will put into perspective as to how much Knowledge (database of the message of Jesus and the Paraclete) and perseverance is needed to perform the greatest miracle of all, the salvation of the lost souls. In short, if you do not have ears that hear there is absolutely no way you will be following the clear instructions of Jesus when it mattered most in the Age that has Come.

This is what He forewarned 2000 years ago about [false disciples listening to false fathers and prophets](#) of [45,000 global Christian denominations](#) in the Age that has Come:

13 "Enter through the narrow gate. For wide is the gate and broad is the road that leads to destruction, and many enter through it.

14 But small is the gate and narrow the road that leads to life, and only a few find it.

True and False Prophets

15 "Watch out for false prophets. They come to you in sheep's clothing, but inwardly they are ferocious wolves.

16 By their fruit you will recognize them. Do people pick grapes from thornbushes, or figs from thistles?

17 Likewise, every good tree bears good fruit, but a bad tree bears bad fruit.

18 A good tree cannot bear bad fruit, and a bad tree cannot bear good fruit.

19 Every tree that does not bear good fruit is cut down and thrown into the fire.

20 Thus, by their fruit you will recognize them. True and False Disciples

21 "Not everyone who says to me, 'Lord, Lord,' will enter the kingdom of heaven, but only the one who does the will of my [Spirit] who is in heaven.

22 Many will say to me on that day, 'Lord, Lord, did we not prophesy in your name and in your name drive out demons and in your name perform many miracles?'

23 Then I will tell them plainly, 'I never knew you. Away from me, you evildoers!'

Matthew 7:13-23

After fifty years few have found it, yet another prophecy of the Savior that has come true after 2000 years.

But small is the gate and narrow the road that leads to life, and only a few find it.

But small is the Gate of the Agnya Chakra where the Savior resides within and narrow the road of the Resurrection that leads to eternal life in the Kingdom of God (Sahasrara) within, and only a few who persevere with ears that hear in the End Times find it.

The few are those here having ears that hear Jesus speaking, again. Many more will by 2050 by the grace of those [willing to bring about the greatest miracle of all](#), the salvation of lost souls. **Amen.**

Hi All,

Intro to: The Mind and Manifestation-(The Rise of the Inaccessible One)-Pt.3 – (June 5, 2021)

"... The root of our empowerment is outside the conscious sphere, and our effective ways of increasing empowerment must also lie in that field." - (Dr. Lipton)

We have the conscious (present, creative) mind, the subconscious (habitual, conditioned) mind and the supraconscious (futuristic thinking) mind.

It is by living in the conscious (present, creative) mind, that we have the power to evolve.

There is a further, fourth state of consciousness that human beings need to achieve. This is the superconscious (connected to the mains) mind.

When we receive our kundalini-awakening, we come into union with our own individual Mother, within ourselves. This brings us in touch with the superconscious – the higher mind of the Holy Spirit.

Shri Mataji was the incarnation of the Comforter. As the 'external' Comforter, I heard her say:

"I incarnated to introduce you to your own, individual Mother."

Our own, individual Mother is our internal Comforter/Helper, "that abides with you forever" (John 14:16).

With the help of our kundalini awakening and through meditation and contemplation, the chatter of the mind begins to lessen and the state of thoughtless awareness gradually settles in.

A person begins to realize that they have a connection that comes from beyond the conscious mind, yet flows into their consciousness. They know that such intuitions and knowledge that they have received, did not come from themselves, but from the Higher Mind/Spirit.

How can this happen within a human being?

Through having their self-realization, their connection to the superconscious.

Then, through meditation and contemplation, a greater space between mundane thoughts can be achieved. There come fewer unwanted intrusions. Eventually, the 'past' and 'futuristic' thinking dissipates and the mind becomes soothingly clearer.

A person still uses their power of thought. That is intentional to achieve a purpose. It is not the same as unwanted thoughts.

Shri Mataji recommended that when unwanted thoughts arise, to say as many times as needed:

"Not that thought".

This teaches the conscious mind not to entertain unwanted thoughts from the sub-conscious:

"According to Dr. Lipton, the sub-conscious mind processes about 20-40 million bytes of information per second. In contrast the conscious mind, which we regard as being in charge of everything, operates only at about 40 bytes per second. [26] That means the vast majority of our normal everyday mental processing is under the control of the sub-conscious mind, and we need to remember that the sub-conscious mind is about a million times more powerful than the conscious in its impact on our everyday affairs, for only about 0.01% of all the brain's activity is experienced consciously."

That is why we need to be connected to the mains, as Shri Mataji put it. We need to attain the superconscious, so that we are not dominated by the subconscious.

"It appears then, that most of what we believe or feel depends on that significant major part of our brain activity that is beyond our conscious awareness. In terms of our interest in this book, that means the root of our empowerment is outside the conscious sphere, and our effective ways of increasing empowerment must also lie in that field."

We do not fight the subconscious. It is useless to do so. We just replace negative conditioning with positive conditioning.

It took many years to implant both good and bad conditionings. Reversing the bad conditionings by replacing them with good conditionings, takes time.

It takes repeated spiritual effort on our part. That is okay. Bit by bit it will be achieved.

Love to All,

Violet

The Mind and Manifestation – (The Rise of the Inaccessible One) – Part 3 – (June 5, 2021)

The Conscious Mind Is a Minority Partner in Our Daily Thinking

"... The root of our empowerment is outside the conscious sphere, and our effective ways of increasing empowerment must also lie in that field." - (Dr. Lipton)

(p.75) Over the last forty years or so a range of studies by leading molecular biologists has shown that our conscious mind contributes only about 5% or less to our daily cognitive activity. And that's for individuals who are more aware and active in mind. The majority of people they say operate at only about 1% of the

consciousness potential. Dr. Daniel J. Siegel [24] and Dr. Bruce Lipton [25] have done excellent work in this field.

It used to be believed that it was our genes that controlled who we are, but Dr. Lipton says that the new science of epigenetics shows that how our minds see and interpret our environment controls and manipulates our genes. According to these new discoveries, how we interpret situations that happen to us can change many things about how we are.

Our everyday thoughts usually revolve around where we have suffered some mental injury in the past, so our thoughts normally gravitate to our weaknesses, and those thoughts, unless corrected, unfailingly create more of the same. (p.76) The Church's traditional recipe of sin, shame, guilt and repentance, is tailor-made to ensure the persistence of victimization all life long, and is the direct opposite intent to the teachings of Jesus, of which it claims to be the guardian.

Dr. Lipton's research claims that our DNA is controlled by signals from outside the cell, including the energetic messages emanating from our positive and negative thoughts. This implies that our genes are controlled and manipulated by how our minds perceive and interpret our environment. Not surprisingly, Dr. Lipton's views have yet to attain acceptance in mainstream medical circles.

According to Dr. Lipton, the sub-conscious mind processes about 20-40 million bytes of information per second. In contrast the conscious mind, which we regard as being in charge of everything, operates only at about 40 bytes per second. [26] That means the vast majority of our normal everyday mental processing is under the control of the sub-conscious mind, and we need to remember that the sub-conscious mind is about a million times more powerful than the conscious in its impact on our everyday affairs, for only about 0.01% of all the brain's activity is experienced consciously.

Dr. Lipton explains that it's helpful to visualize everyone having two separate minds that control the body. The conscious mind can think freely and create new ideas. The sub-conscious mind however, is more akin to a super-computer loaded with a database of programs that control our behavior. Most of that database was acquired in our early years – before we reached the age of about six. Fundamentally the sub-conscious mind is the sum of our genetically programmed instincts and our beliefs.

It appears then, that most of what we believe or feel depends on that significant major part of our brain activity that is beyond our conscious awareness. In terms of our interest in this book, that means the root of our empowerment is outside the conscious sphere, and our effective ways of increasing our empowerment must also lie in that field.

(p.77) The sub-conscious mind reacts to situations automatically with its previously stored behavioural responses. It cannot move outside its fixed programs. All of this occurs without the knowledge or control of the conscious mind.

Our life reflects the character of this sub-conscious programming. The sub-conscious mind is designed to create reality out of its programs; in short, its job is to prove that its programs are true. So, if we have negative programming in our sub-conscious mind, Dr. Lipton says we will end up re-creating those negative experiences in our lives. He also points out that, if we are honest, we will realize that most of the programs in our sub-conscious are based on negativity: fear of what other people are thinking about us, fear of the unknown, fear of not being able to cope, fear of not being loved and respected for who we are, and so on. It is obvious that these are precisely the types of fears that the image of Jesus as a Suffering Savior continually engender.

In essence, this means that the biggest blocks to manifesting our dreams are the limitations programmed into the sub-conscious mind. One of the most powerful sources of this type of program has come from the ways in which Jesus and his message have been corrupted. In fact, one might legitimately say that perhaps in a sense the world would have been better off if Jesus had never come, or, more accurately, if the distortions introduced by religious authorities into his message, could have been prevented. These distortions have very negatively affected the course of Christian history.
